ATTENTION

Again we have an excellent slate of speakers for our Fifth Annual Spring Symposium on Northeast Historical Archaeology to be held at Bear Mountain and the New Windsor Cantonment.

This year the business session in the morning will be devoted to a final vote on the all important Constitution and Ethical Standards and Program that was approved by the Steering Committee at the 1969 Fall meeting in Rochester. A great deal of work has gone into drafting the Constitution and will provide a sound base for future growth of the Organization. In addition nominations and election of members to the Executive Board will be held.

This year’s evening speaker will be Mr. Paul Huey, Senior Archaeologist for the New York State Historic Trust. Mr. Huey has an extensive background in Historic Site Archaeology that includes excavation at Crown Point, Albany Glass Factory Site, Bonnin and Morris China Factory and the La Grange Farm Site. His talk will be on "The Future Directions for Historical Archaeology in New York State".

Time will be allotted during the Question and Answer period this year for Show and Tell, therefore anyone with unidentified artifacts may have them identified by experts.

Anyone wishing to have historical exhibits at the Symposium please contact us as soon as possible so that adequate arrangements can be made. It will be on a first come first serve basis.

The Cliff House is located at the north end of Hessian Lake near the Bear Mountain Traffic Circle. Parking is available near-by. Reservations at near-by hotels can be arranged for out of town guests. Please indicate if desired.

NOTE: The Steering Committee has already accepted the offer by the North Jersey Highlands Historical Society to sponsor the 1970 Fall Symposium at Ringwood Lake State Park on Saturday October 24, 1970.

Looking forward to seeing everyone in April.
